

Welcome to AFPCS Asynchronous / Virtual Learning Page

Please check here whenever there is a virtual or asynchronous learning day. These links will remain the same.
Asynchronous vs. Virtual learning – What’s the difference?

Asynchronous Learning Days do not include live instruction. On Asynchronous days, students will complete assignments in the morning and join office hours in the afternoon if they need additional support. Everyone follows the same Asynchronous day schedule.

Virtual Learning Days do include live instruction. On Virtual days, students will log into live sessions with their teacher and follow the virtual schedule. Grade specific virtual schedules can be found on teachers’ Sway pages.

Next Asynchronous Learning Day – 3/20/26 – Eid-ul-Fitr
